CS 440 Meeting Minutes

Group 22 Date: April 18th, 2020 Time: 7:00 Duration: 2 hours

Present, on time: Harsh, Brian, Omar, Emmanuel

Present, not on time:

Absent:

Synopsis: As a group we wrote more extensive unit testing. On top of this, we also were able to fix our GitHub actions in order to not create nullptr.

Recent Individual Accomplishments:

Brian: Wrote Unit for backend

Emmanuel : Wrote unit tests for backend

Harsh: widget testing for UI

Omar: Fixed GitHub actions by Tuning up front end api call tests so there aren't any variable nullptr errors. Filter data for each waiter and manager so the loading 8mes aren't too long. Complete the drawer bu\on ac8ons

Correction Individual Activities:

Each group member will be testing the project itself

Individual Action Items:

As a group, we will be conducting testing of each others portion of the project to ensure that all of

Our features are working correctly.
